

Scaffolding Brochure

ACROW

INTRODUCTION

Acrow is a leading force in the scaffolding industry, known for setting the national standard in engineered industrial and construction services for nearly 80 years, Acrow's dedication to quality and innovation is unmatched. Our expertise encompasses scaffolding, formwork, falsework, and shoring systems, all designed and manufactured to the highest standards.

All components in our Quickstage scaffolding system are manufactured in accordance with SANS 10085-1 standards, and the materials conform to SANS 657-1 specifications. This ensures unparalleled safety, durability, and efficiency in every project we undertake.

From major infrastructure projects to everyday construction needs, Acrow's Quickstage system is your reliable partner in achieving construction excellence.
