Message from the Managing Director

At Airmaster, we believe that success is derived from a relentless focus on innovation and customer service. As a reliable air-distribution equipment provider to the HVAC industry since 1987, we have always striven hard to increase our product range through continuous and rigorous product development programs. Our main objective is to offer a complete range of HVAC solutions to our customers, sparing them time and effort to focus on quality constructions.

We are committed to implementing business practices that generate value for our clients, employees and shareholders. We are on the constant look out for suppliers who can provide us materials faster, better and cheaper thus enabling us to pass on the economic benefits to our customers while always staying mindful of the quality of our raw materials and finished products.

Beyond the boundaries of the manufacturing sector, it is our belief that we have a responsibility towards society, government and environment. As part of our wider business strategy, we aim to fulfill those responsibilities by adhering to strict codes of safety and non-hazardous disposal of chemical and electronic waste.

Airmaster has always considered it a privilege to collaborate with its customers to develop customized products. We look forward to continuing this journey of serving you better. Through innovation and quality we prosper!

Airmaster - Where Your Design Comes to Life.

Munvar Khan
Managing Director

About Airmaster

Since 1987, Airmaster Equipments Emirates L.L.C has been serving the HVAC industry with air-distribution, ventilation and fire safety products. Ever since our inception in the U.A.E with only 15 people on board, we have actively sought after and achieved international quality benchmarks and delivered premium quality products. We currently operate 8 manufacturing facilities across the GCC employing a workforce of over 300 to meet the busy schedule of our customers. Our progressive growth over the years is the result of our commitment to delivery of quality products and an invariable passion for continuous improvement and the dedication of our employees. We firmly believe it is our customers who make us what we are. We are always in search of new business opportunities and products to further expand our wings of innovation to serve our customers in the best possible way we can.

Vision:

To offer customized and innovative products for the HVAC industry without compromising on quality, safety & reliability.

Our Goal:

1. Achieve excellence through best practice
2. Meet customer needs and requirements
3. Establish safe and environment friendly working standards
4. Economical use of resources
5. Expand our geographic footprint

Our Values:

1. Integrity
2. Quality
3. Trust
4. Customization
5. Reliability
6. Commitment
